Instructions for Packaging Auto Batteries

BATTERY PREPARATION
How to Properly Stack Used Batteries on Pallets

**Details**

Damage batteries that are not visibly leaking electrolyte should be placed in strong poly bags and properly closed with an adjustable plastic tie and secured.

**NOTE:** Add top layer of batteries after shrink wrapping bottom two layers.

**WARNING:** Arrange batteries so terminals do not touch. Terminals touching may cause a short and/or fire!

**STEP 1**

- Load batteries 2 layers high, then shrink wrap
- Wrap tightly 3 or 4 times around, making sure to catch top of pallet to help anchor load

**STEP 2**

- Load third layer, place cardboard on top, then shrink wrap entire load
- Wrap tightly 3 or 4 times around overlapping bottom layers

**CORRECT**

**WRONG**

Catch top of pallet with shrink wrap

Shrink Wrap
